Editorial

Welcome to the Academic Year 2020/2021

Óscar F. Gonçalves, Ph.D, Program Director

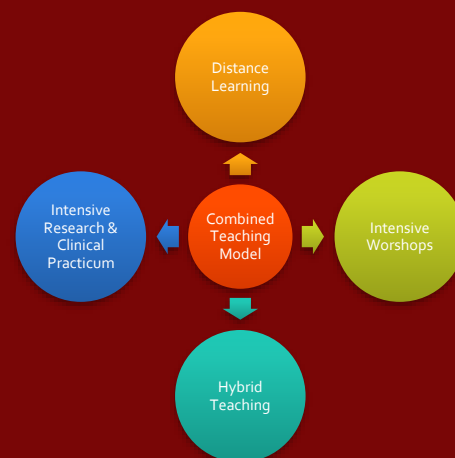

As most of you are still enjoying a well-deserved Summer break, IMCEN faculty is already speeding up to have everything in place for the 2020/2021 academic year. The matching for internship sites and master's theses supervision is now completed and our first IMCEN's cohort will be soon enrolled (starting October 6th) on a very intense and rewarding clinical/research experience. This newsletter will feature internship and master's theses matching for 2020/2021.

As for the new cohort, we just completed the selection process for the first call, and the second call will be opening in the next few weeks (August 28th – September 4th). Here, we will be sharing reactions from some of these students as they learned they were admitted to this 2nd IMCEN cohort.

This edition of the IMCEN newsletter will also feature some information regarding the 2020/2021 calendar, our student Joana Sayal "My Door to the World" and additional information regarding the 2nd call application (all applications will be administratively processed through the University of Coimbra site <https://apps.uc.pt/courses/EN/course/8021>).

Take the last few weeks to refill your batteries. We all need to be fully charged for 2020/2021.

	Universities	<ul style="list-style-type: none"> • University of Coimbra • University of Lisbon • University of Minho
	Faculties	<ul style="list-style-type: none"> • Faculty of Psychology and Educational Sciences - Coimbra • Faculty of Psychology - Lisbon • School of Psychology - Minho
	Labs	<ul style="list-style-type: none"> • Proaction Lab • PsychAssessment Lab • Voice, affect & speech neuroscience lab • Memory and Language Research Team - Cognition in context research group - CICPSI • Psychological Neurosciences Lab

Welcome to Our New Students

2nd IMCEN Cohort – 2020/2021

The results of the selection process for the 1st call were announced July 31st. Here we share with you some of our candidates' reactions as soon as they learned they were admitted into IMCEN. Students featured here completed their undergraduate degrees in different locations: Sarah Sartor from Cologne in Germany, Francisco Santos from Aveiro and João Sarzedas from Lisbon. Each one of them were placed in distinct IMCEN campi according to their choices, respectively, University of Minho, University of Coimbra and University of Lisbon. We are pleased to have you among us and wish you the best of success with your studies.

Welcome to our New Student – Sarah Sartor

Interuniversity Master in Clinical & Experimental Neuropsychology 2020/2021

"A dream came true when I got the acceptance for the IMCEN, because I see this program as the perfect education for my future international career. With the great courses on offer, I am happy to be able to absorb all the knowledge that is being offered to me. The previous interaction with the professors and a student has already shown me how much value is placed on the exchange between the students and instructors, which is why I believe that I am in good hands during my studies. My current interests are autism, dementia and schizophrenia. I hope to be able to combine my research and clinical work on these topics in the future." (Sarah Sartor).

Welcome to our New Student – Francisco Santos

Interuniversity Master in Clinical & Experimental Neuropsychology 2020/2021

"I still can't believe I'm going to be part of the IMCEN's family!! I am very proud to have the opportunity to develop my knowledge in the next two years with a study plan with such varied teaching formats and I'm also very motivated to start working and make the most of this experience. See you soon, Coimbra!" (Francisco Santos).

Universidade do Minho
Escola de Psicologia

Welcome to our New Student – João Sarzedas

Interuniversity Master in Clinical & Experimental Neuropsychology 2020/2021

"I am very glad to have been accepted in this challenging master and eager to start improving my knowledge in Neuroanatomy, Neuroscience, and Neuropsychology. Furthermore, I am excited to work with the Voice, Affect & Speech Neuroscience Lab, and with the Memory and Language Lab for the Experimental Neuropsychology Rotation courses"(João Sarzedas)

How do we recognize someone's identity through voice?

How do we attach meaning to what we hear during a conversation?

What changes in the brain when experiencing auditory hallucinations?

Internship Placements for 2nd Year Students- IMCEN 2020/2021

Second year students who have already completed the required 1st year credits were placed for their internship. We have selected a diverse and high quality set of internship sites that, building on excellent local and faculty supervision, will allow an excellent opportunity for professional training in experimental and clinical neuropsychology (due to the current pandemic situation internships at CHUC are still waiting to be confirmed).

Adriana Martins

NeuroRehab|Lab, University of Madeira, Funchal

Master's Theses: Projects and Supervisions for

2nd Year Students- IMCEN 2020/2021

Master's theses projects and supervisions are already established for second year students who have already completed the required 1st year credits. We're glad to witness a diversity of studies going from experimental to applied domains, using a diversity of neuroscience methods and benefiting from an international network of advisors from Portugal, Spain, Germany, Brazil and Israel.

INTERUNIVERSITY MASTER IN

**Clinical and Experimental
Neuropsychology**

Calendar 2020/2021

1st Year/1st Semester

Research Methods in Neuropsychology

Coordinator: Maria Maraver

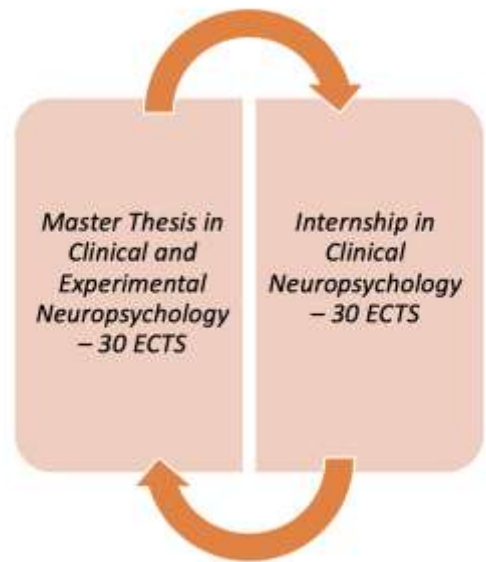

Instructors: Adriana Sampaio, Ana Pinheiro, Jorge Almeida, Maria Maraver

Friday: 9,00 am – 7,00 pm

Dates and Locations: 9/10 (UL); 23/10 (UL); 6/11 (UC); 20/11 (UMinho); 4/12 (UL)

2nd Year/3rd & 4th Semesters

Classes Start – September 28th

Classes End – January 14th

Winter Break – December 21st – January 2nd

Functional Neuroanatomy

Coordinator: Adriana Sampaio

Location: UC - (Proaction Lab - Colégio de Jesus/Museu da Ciência); UL – (videoconference room); UMinho - (room 1096)

Monday: 9,00 am – 12,00 am

Dates: 28/9; 12/10; 19/10; 26/10; 2/11; 9/11; 16/11; 23/11; 30/11; 7/12; 14/12; 4/1

Cognitive, Emotional and Social Neuroscience

Coordinator: Jorge Almeida

Instructors: Jorge Almeida, André Peres, Jon Walbrin, Zohar Tal, and Fredrik Bergström

Location: UC - (Proaction Lab - Colégio de Jesus/Museu da Ciência); UL – (videoconference room); UMinho - (room 1096)

Tuesday: 2,00 am – 5,00

Dates: 29/9; 6/10; 13/10; 20/10; 27/10; 3/11; 10/11; 17/11; 24/11; 15/12; 5/1; 12/1

Experimental Neuropsychology Rotation

Coordinator: Óscar F. Gonçalves

Instructors: Adriana Sampaio, Ana Raposo, Ana Pinheiro, Jorge Almeida, Mário R. Simões

Location: Resident Labs at UC, UL or UMinho

Seminar: Wednesday 9,00 am – 11,00 am

Dates: 30/9; 7/10; 14/10; 21/10; 28/10; 4/11; 11/11; 18/11; 25/11; 2/12; 9/12; 16/12

Lab Rotation: 7 hours for 15 weeks (starting 28/9; ending 14/1)

Internships – Starting October 6th (up until completing 600 hours on internship site – e.g. 40h/15 weeks; 20h/30 weeks)

Theses – October 6th – June 23rd.

Joana Sayal – IMCEN - “My Door to the World!”

Joana Sayal, a 2nd year IMCEN student at the University of Coimbra, about entering her master’s thesis research at the Proaction Lab and internship at the University of Coimbra Hospitals, was recently featured as a “student to watch” in the University of Coimbra website - https://www.uc.pt/descobreuc/historias/joana_sayal. There, she talks how she has been able to reconcile her double career as a musician and as a student in psychology and neurosciences. Worth watching this inspiring video in the youtube (subtitles in English available <https://www.youtube.com/watch?v=D9-j2Wr4bok>).

CONGRATULATIONS, Joana. At IMCEN, we are all very proud of you!!!
